

**TENNESSEE BOARD OF ARCHITECTURAL & ENGINEERING EXAMINERS
ACCEPTABLE CONTINUING EDUCATION PROVIDERS**

Continuing education courses offered by the following providers are generally accepted by the Board:

Local, state, and national professional and technical societies (such as AIA, NSPE, ASCE, etc.)

National regulatory councils (NCARB, NCEES, CLARB, and CIDQ)

Government agencies

Colleges and universities

In addition, courses or providers approved by the AIA, the Registered Continuing Education Program, the Landscape Architecture Continuing Education System (LA CES), the Interior Design Continuing Education Council (IDCEC), a national regulatory council, or another state registration board are generally acceptable.

NOTE: The Board does not pre-approve continuing education courses or providers. Although courses offered by the above providers are generally acceptable, it is still the registrant's responsibility to determine if specific courses meet the criteria of the rules. Registrants are not required to choose activities offered by the above providers and are free to earn hours through other providers, provided that those activities meet Tennessee's requirements. All courses claimed for continuing education credit must be relevant to the practice of architecture, engineering, landscape architecture, or interior design.
